ABSTRACT

This transfer guide provides supplemental counseling for community college students from throughout Washington who intend to transfer to Washington State University (WSU) in pursuit of a baccalaureate degree. The information it contains is designed to help students to identify the most appropriate courses for them to take prior to transferring to WSU. The first section presents such general information as how to apply for admission, regulations regarding returning students, the transfer of credits, and the associate in arts and/or science degree. This is followed by policies for nontraditional credit through means such as the college-level examination program, credit for armed forces courses, experiential learning, and advanced placement. The second section details general university requirements for graduation from WSU, including requirements in communications proficiency, arts and humanities, intercultural studies, social sciences, and the sciences. The third section describes all the transfer programs and the course requirements for majoring in them, including special admission policies, majors, and special departmental regulations. The last section provides course equivalents for every community college in the state of Washington, detailing the course name, whether it is transferable, whether it meets general university requirements, and restrictions and/or special notes. State University

Office of Admissions, Pullman, Washington 99164-1036 / 509-335-5586

Each year over 700 community college students from throughout Washington transfer to Washington State University in pursuit of a baccalaureate degree. This WSU-community college Transfer Guide has been published to supplement counseling provided by your advisor and counselors at the community college. The information it contains will help you identify the most appropriate courses for you to take prior to transfer to WSU.

The guide is an expression of WSU's concern for the transfer student. That concern for students has been part of the Washington State University heritage, which dates back to 1890 when the Pullman campus was founded as Washington's land-grant institution. True to its historical mission, for nearly 100 years WSU has held a commitment to academic excellence demonstrated by quality instruction, applied research, career counseling, and job placement.

The theme "New Horizons" will mark WSU's Centennial in 1990. That theme bridges tradition with innovation: the tradition of concern for students' education and subsequent careers with the most advanced laboratories, libraries, and living environments.

We are proud of our reputation which declares Washington State University to be what a great university should be!

STAN BERRY, Director of Admissions

WASHINGTON STATE UNIVERSITY COMMUNITY COLLEGE RELATIONS

STAN BERRY, Director of Admissions

JESSE WELCH, Associate Director
Community College Programs

LIZ HOBBS, Community College Coordinator

Washington State University
Pullman, WA 99164-1036

509-335-5586

Washington State University subscribes to the principles and laws of the State of Washington and the federal government pertaining to civil rights and equal opportunity, including applicable Executive Orders. Washington State University policy prohibits discrimination on the basis of race, sex, religion, age, color, creed, national or ethnic origin, marital status, and handicap in the recruitment and admission of students, the recruitment and employment of faculty, staff, and students, and the operation of all University programs, activities, and services. Evidence of practices which are inconsistent with this policy should be reported to the Affirmative Action Director, the Title IX Compliance Officer, or the 504 Coordinator who may be reached through the Affirmative Action Office, French Administration Building, Room 225 (509) 335-8288.

GENERAL INFORMATION

This transfer guide was prepared for community college counselors and prospective transfer students to help them to more efficiently plan a program of study for the freshman and sophomore years. These programs are not absolute patterns, but guides to effective program development.

Programs have not been included for all areas of study because of the relative freedom in many lowerdivision course patterns. Students pursuing programs not included in this book should refer to the Washington State University Bulletin, the general catalog of course offerings and requirements, for the most appropriate curriculum.

Student with specific questions are encouraged to contact the Office of Admissions and/or the individual program directors, department chairmen, or college deans.

HOW TO APPLY FOR ADMISSION

Applications received from December 1 to June 1 will be given preference for fall semester admission. Applications received after June 1 will be accepted on a space available basis. Applications are accepted from September 15 to December 15 for spring semester. Necessary forms may be obtained from the registrar's office at any community college or from the Office of Admissions at Washington State University. A $25 application fee must accompany the application.

Applicants will be considered for admission on the basis of work completed at the time the application is submitted. Eligible students will be sent a Notice of Eligibility, and a $50 advance payment on tuition and fees will be requested. After the $50 has been paid, a Notice of Admission will be sent to the student. As soon as all work is completed, applicants must send a final transcript. Unsatisfactory academic performance, reduction of cumulative grade point average to below the level of eligibility, or failure to submit the final transcript by July 15 renders the admission subject to cancellation.

ADMISSION POLICY

Students who have completed at least 10 semester (15 quarter) hours of transferable work with no less than a 2.00 grade point average at the time of application will be granted provisional admission. Those not completing at least 10 semester hours will be asked to submit a high school transcript for review. Applicants who fail to maintain a 2.00 grade point average in all college work will be denied admission.

PROGRAMS/DEPARTMENTS WITH ADDITIONAL ADMISSION/ CERTIFICATION REQUIREMENTS

Fulfilling the admission requirements does not guarantee admission/certification to all departments or programs. Certain programs have found it necessary to limit enrollment; therefore, all eligible students may not be accepted into all programs.

Special departmental or program requirements are listed in the appropriate sections of the following programs.

Architecture
Construction Management
Business/Hotel Administration/Economics
Communications
Computer Science
Education
Engineering
Fine Arts
Interior Design
Landscape Architecture
Nursing
Pharmacy
Veterinary Medicine

FORMER STUDENTS RETURNING

Students formerly enrolled at Washington State University and wishing to return must submit an application for re-enrollment. Preference will be given to applications received by July 1 for fall semester and December 15 for spring semester.

Former students returning whose previous academic record at Washington State University is unsatisfac-

BEST COPY AVAILABLE

tory will be required to follow established academic reinstatement procedures prior to re-enrollment.

Former students who have attended other institutions since last enrollment at Washington State University must submit an official transcript from each institution attended. Applicants will be required to have at least a 2.00 (C) grade point average in all such work.

Requests for re-enrollment information and applications should be made to the Office of Admissions.

TRANSFER OF CREDITS

Washington State University will accept 60 semester (90 quarter) hours of community college academic course work toward the baccalaureate degree, irrespective of when the hours were earned.

The translation of quarter credits to semester credits is a mathematical procedure which does not cause a loss of credit. Students transferring from schools on the quarter system need only multiply their credits by two-thirds to obtain the equivalent semester hour credits (e.g., 5 quarter credits is equal to 3.3 semester credits).

The Office of Admissions evaluates courses meeting General University Requirements (GURs). Records are then sent to the department for evaluation of departmental courses. All remaining transferable courses are given credit as elective hours toward graduation.

All college grades earned are used in calculating a grade point average except for courses identified as terminal or vocational. Grades of "D" or "F" will be disregarded if the student repeats the course and earns another grade. Grades of "D" are transferable; however, the department may require students to repeat "D" grades in the major field of study. Grades of "C" may not be repeated for credit.

Students transferring from two-year colleges must earn at least 60 semester hours of course work at Washington State University to meet the minimum graduation requirement of 120 semester hours. Transfer students must also complete any additional program and/or departmental requirements as well as GURs.

ASSOCIATE IN ARTS AND/OR SCIENCE DEGREE

Students who have earned an approved direct transfer Associate in Arts and/or Science (AA or AS) degree from a Washington state community college will be granted junior standing and completion of all GURs (does not include completion of college or departmental requirements). Holders of other degrees or those who have not completed an AA or AS will be granted credit on a course-by-course basis.

Students must complete additional program and/or departmental requirements and the GURs.

Students who are reasonably sure they will transfer to Washington State University are strongly encouraged to meet the following minimum requirements for the associate degree.

1. A minimum of 75 quarter hours of academic transfer work.

2. A minimum of 15 quarter hours of science including at least 10 quarter hours of natural science including one laboratory experience.

3. At least 9 quarter hours each of the following: social science, humanities, and communications proficiency which must include 5 quarter hours of written English.

The section "General University Requirements" lists specific courses offered by Washington state community colleges which meet Washington State University's GURs.

NONTRADITIONAL CREDIT POLICIES

COLLEGE-LEVEL EXAMINATION PROGRAM (CLEP)

Hours granted for CLEP examinations, both general and subject, in addition to existing college or university credit may not exceed a total of 60 semester hours.

Maximum credit:
General examinations (Social SciencesHistory, Natural Sciences, Humanities), 18 semester hours
Subject examinations, 60 semester hours
(But no more that 60 semester hours total between General and Subject examinations)

Minimum standard score:
General examination, subscore 48 (credit not granted for general examinations in Mathematics or English)
Subject examination, departmental approval

Students must submit an official transcript of CLEP scores directly to WSU for evaluation of credit.

BEST COPY AVAILABLE

CREDIT FOR ARMED FORCES COURSES AND EXPERIENCE

WSU follows the recommendations of the American Council on Education through its publication "Guide to the Evaluation of Education Experience". Appropriate documentation must be submitted directly to WSU.

CREDIT FROM NONACCREDITED INSTITUTIONS

Granting of credit will be considered for work completed at a nonaccredited institution at the end of one semester (minimum 15 semester hours) with a 2.00 gpa at WSU. The amount of credit to be granted will be determined by the Admissions Sub-committee. All institutions attended MUST be listed on the admission application at the time the application is submitted.

EXPERIENTIAL LEARNING

For this purpose, experience-based learning is learning that takes place outside of a supervised classroom experience, i.e., prior experiences, life-long learning experiences supported by portfolios and/or certificates. These types of learning experiences are not considered for academic credit.

CREDIT FOR RELIGIOUS COURSES

Three semester hours per semester and a maximum of 9 semester hours of course work will be allowed toward a degree.

ADVANCED PLACEMENT

Credit and placement may be granted for students who submit scores of three (3) or higher on the College Board Advanced Placement Examinations (AP). Students wishing credit must submit an official transcript of test scores directly to WSU.

FOR FURTHER INFORMATION

Additional information may be found in other WSU publications. All rules and regulations governing Washington State University will be found in the Washington State University Bulletin. For answers to questions or general information, please write to:

Office of Admissions
Washington State University
Pullman, WA 99164-1036

GENERAL UNIVERSITY REQUIREMENTS

Below are the General University Requirements (GURs) for graduation from Washington State University. On the following pages are listed the courses that will be accepted toward meeting these requirements. GURs may be met in many instances by courses also meeting departmental requirements, as long as they are not in the student's major field.

Communications proficiency	6 semester hours, 3 of which must be in written communication to be chosen from the courses listed.
Arts and humanities	6 semester hours to be chosen from the courses listed.
Intercultural studies	3 semester hours to be chosen from the courses listed.
Social sciences	6 semester hours to be chosen from the courses listed.
Sciences	10 semester hours to be chosen from the courses listed. All students must earn at least 1 credit for 3 clock hours of laboratory per week. (One hour of lab credit is earned by spending 3 hours per week, for one semester, in the laboratory.)

The Direct Transfer Associate Degree will meet the basic General University Requirements. Students, however, are reminded that they will be held for any additional college and/or departmental graduation requirements.

BEST COPY AVAILABLE

AGRICULTURE

MAJORS

In the College of Agriculture and Home Economics the student has a choice of twenty undergraduate agriculture majors, six with separate curricula, as shown below, and a choice of a minor in many of the departments.

Major	Administrating Department or Area
Agricultural Communications	General Agriculture
Agricultural Economics Separate curricula in Agribusiness Management, Technical Agriculture and General Agricultural Economics	Agriculture Economics
Agricultural Education[1]	College of Education
Agricultural Engineering[2]	College of Engineering and Architecture
Agricultural Mechanization	Agricultural Engineering
Agronomy Separate curricula in technical, business and industry, and science	Agronomy and Soils
Animal Sciences Separate curricula in general livestock, beef cattle and sheep, dairy cattle, horses, swine, poultry, meats, animal breeding, animal biology, animal nutrition, and animal physiology	Animal Sciences
Entomology	Entomology
Environmental Science	Colleges of Agriculture and Home Economics, Engineering and Architecture, and Sciences and Arts
Food Science and Technology	Food Science and Technology
Forest Management[3] Separate curriculum in Wildland Recreation Management	Forestry & Range Management
General Agriculture	General Agriculture
Horticulture Separate curricula in fruit and vegetable production, ornamental horticulture	Horticulture and Landscape Architecture
Integrated Pest Management	General Agriculture
Landscape architecture[4]	Horticulture and Landscape Architecture
Plant Pathology	Plant Pathology
Range Management	Forestry and Range Management
Soils Separate curricula in science, soil management, and soil inventory	Agronomy and Soils

[1]Degree and administration by College of Education.
[2]Degree and administration by College of Engineering and Architecture.
[3]Accredited by the Society of American Foresters.
[4]Accredited by the American Society of Landscape Architects.

Most agriculture courses are taken during the junior and senior years. The freshman and sophomore years may include some agriculture courses but generally are devoted to basic nonagriculture courses that fulfill General University Requirements and prepare students for later study.

Students planning to transfer to Washington State University should study the WSU catalog and give special attention to courses normally completed during the freshman and sophomore years.

The director of resident instruction or the chairperson of the department in which the student is interested will answer specific questions about course scheduling for prospective transfer students.

Transfer to the College of Agriculture and Home Economics from a community college that does not offer agriculture courses is possible. Students should complete courses satisfying General University Requirements and major supporting courses.

Students interested in plant sciences should take basic botany and students interested in animal sciences should take basic zoology, if there is no equivalent to Biological Science 103, 104.

BEST COPY AVAILABLE

Transfer students who have completed the equivalent of the Pre-Landscape Architecture curriculum as listed in the WSU bulletin may concurrently submit an application and the required documents to the Department of Horticulture and Landscape Architecture for consideration as a LA major. Transfer students may also be considered for certification as a LA major during the first semester at Washington State University based on a student's qualifications and department enrollment limitations.

WASHINGTON STATE UNIVERSITY

Agriculture	Semester hours
Communications proficiency (3 must be written)	6
Economics 102, 203 or Economics 201 or Agricultural Economics 201	3-6
Social Science elective	6
Intercultural Studies elective	3
Speech elective	3
Humanities electives	6
Biology 103, 104 or Botany 201	8
[1]Chemistry 105, 106	8
[2]Mathematics 101 or 107 or 140	3-4
[3]Approved agriculture electives	12

[1]Students with strong backgrounds in high school chemistry will take Chemistry 105 and 106 at WSU. Those with weak backgrounds will take Chemistry 101, 102. In order to avoid delay in completing College of Agriculture and Home Economics requirements, it is advisable to complete the chemistry courses at the community college. Chemistry and biology are not required for agricultural economics majors.

[2]Mathematics requirements vary by departments, but students are encouraged to complete mathematics through college algebra and trigonometry (or pre-calculus) at the community college.

[3]Normally all community college agriculture courses numbered 100 and 200 will be accepted for transfer to WSU. Check with community college agriculture instructors to determine courses that have been approved by WSU for transfer. The publication, "Community College Courses Accepted for Transfer to WSU," provides a list of transferable agriculture courses for each community college offering transfer agriculture courses in Washington.

ARCHITECTURE

The School of Architecture offers a five-year program in architecture leading to the Bachelor of Architecture degree. This program is accredited by NAAB. The first two years of study can be taken at a community college or other institution of higher education that offers equivalent coursework, while the last three years are a professionally oriented program that must be taken at WSU.

Due to limitations in space, faculty, and budget, admission to the Professional Program at the third year level can be granted to only the most qualified students. Only students accepted and certified as Architecture or Construction Management majors shall enroll in a 300- or 400-level architecture or construction management courses.

Due to the intensity and professional emphasis of the final three years of the program, specific course requirements must be satisfied before a student will be considered for admission. A student who anticipates applying for the program should become very familiar with these requirements, which are as follows:

a. 60 semester hours of acceptable credit from recognized colleges or universities.

b. Completion of the General University Requirements as defined in the Washington State University Bulletin. It is strongly recommended that Env.S. 101 equivalent be taken to satisfy 3 semester hours of the GUR social sciences requirement.

c. Mathematics including college-level algebra, trigonometry, and at least 3 semester hours of college-level calculus.

d. 4 semester hours of college-level physics with laboratory.

e. 3 to 4 semester hours of physical sciences from the following list (WSU course numbers shown): Physics 102, Physics 202, Physics 322, Physics 380, Astronomy 135, Chemistry 101, Chemistry 105, Chemistry 115, Geology 101, Geology 102, Geology 310, Geology 403.

f. Two semesters (6 semester hours) of architectural graphics, including both freehand and mechanical drawing. Additional fine arts courses are suggested.

g. Two semesters (6 semester hours) of three-dimensional design. If architectural design courses are not available, three-dimensional fine arts courses are recommended.

h. Courses in construction drawing and/or building materials are strongly recommended. If these are not available, a student may be admitted contin-

BEST COPY AVAILABLE

gent upon taking Architecture 331, in addition to normally required courses, during the first semester in the professional program.

i. 3 semester hours of introduction to architecture and/or the design fields. (This requirement may be waived if no similar course is available at the institution from which they transfer).

WASHINGTON STATE UNIVERSITY

Architecture	Semester hours
Freshman year	
Communications proficiency GUR (3 must be written)	6
Mathematics 107 and/or 108	2-5
Mathematics 206 or 171	3-4
Environmental Science 101 (social science GUR)	3
Arts and Humanities GUR	3
Architecture 101	3
Architecture 102	3
Architecture 202	3
Elective	3
Sophomore year	
Physics 101	4
Approved physical science elective	3-4
Social science GUR	3
Arts and Humanities GUR	3
Architecture 201	3
Architecture 203	3
Architecture 331	3
Fine arts elective (recommended)	3
Intercultural Studies GUR	3
Elective	2-3

In addition to the course work listed above, an applicant must submit a portfolio which includes illustrations of graphic and design work and a written statement, and submit certain letters of reference. These requirements are described in detailed material available from the WSU School of Architecture.

Official application forms are available from the WSU Office of Admissions starting December 1. The academic record portion of the application is due February 1 and is to be sent to the WSU Office of Admissions. The portfolio portion of the application is due on March 15 and is to be sent to the WSU School of Architecture.

MICROBIOLOGY OR BIOLOGY

For students wishing to enter the field of microbiology, biology, or entomology, the following course equivalents at Washington State University are indicated. The WSU catalog should be consulted for the exact requirements in each option. Specific scheduling problems should be referred to the chairperson of the department concerned.

Students planning to enter the fields of microbiology and biology should obtain an early concentration in the basic courses of chemistry, mathematics, and physics.

Microbiology majors should have an elementary course in microbiology during their first two years at the community college or they may find it necessary to remain at WSU for a longer period of time.

WASHINGTON STATE UNIVERSITY

Microbiology, Biology	Semester hours
Communications proficiency (3 must be written)	6
Social science elective	6-15
[1]Foreign language	8
Humanities elective	6-15
Intercultural Studies elective	3
Biological Science 103, 104	8
[2]Chemistry 105, 106, 107	9
[3]Chemistry 240	4
[4]Chemistry 220, 222	4
Mathematics 107 and 108	5
[5]Microbiology 201	5
[6]Physics 101, 102 or 201, 202	8

[1]Not required if two years of one foreign language completed satisfactorily in high school.
[2]Students who have not selected chemistry courses equivalent to 105, 106, and 107 will be required to take Chemistry 106 and 107 at WSU in order to qualify for advanced chemistry courses.
[3]Students interested in premedicine should take the equivalent of chemistry 340, 341, 342, and 343.
[4]Microbiology majors only.
[5]Students receiving a grade of "B" or better in a basic lecture-laboratory course in microbiology at the community college will be exempt from taking Microbiology 201 at WSU. Required for microbiology majors only and biology majors.
[6]Microbiology majors only and biology majors.

BUSINESS ADMINISTRATION

The departments of business offer a student a choice of twelve undergraduate fields of specialization: accounting, finance, general business, human resources/personnel, information systems, insurance, international business, management, marketing, quan-

BEST COPY AVAILABLE

titative methods, real estate, and law and public policy. Business administration is a professional field of training in which the community college will offer preprofessional training in economic principles, business law, statistics, and accounting principles. The outline below shows the courses that would normally be taken in the first two years at Washington State University.

The departments of business at Washington State University will not accept for credit toward meeting departmental requirements for graduation any courses taught at the lower-division level that are taught at the junior and senior level at WSU.

To be eligible for admission (certification) into business administration, a student must have at least 40 semester (60 quarter) hours with a cumulative grade point average of 2.8 and a minimum grade point average of 2.4 in at least 6 semester hours of business core courses. Students not meeting this requirement will be placed in the Curriculum Advisory Program while completing certification requirements.

WASHINGTON STATE UNIVERSITY

Business Administration	Semester hours
[1]Communications proficiency (6 must be written)	6
Economics 102, 203	6
Political science or history	3
Psychology 102 or Sociology 101 or Anthropology 101	3
Humanities electives	6
Intercultural Studies elective	3
Science electives	10
Quantitative Methods 215	4
Business Law 210	3
Accounting 230, 231	6
Computer Science 105	4
[2]Mathematics 201	3
Mathematics 202 or 171	3-4

[1]The departments of business normally require 6 semester (9 quarter) hours of written communication proficiency. However, a student who has taken the equivalent of at least 4 semester (6 quarter) hours of written communication with a grade point average of "B" may complete the departmental requirement by taking any course meeting the General University Requirement in communications proficiency.

[2]Community colleges that do not have an equivalent to Mathematics 201 may substitute an equivalent to Mathematics 220, Linear Algebra.

COMPUTER SCIENCE

For students wishing to enter the field of computer science, the courses indicated below are recommended for the freshman and sophomore years. Students uncertain as to their choice of courses before transferring should write to the department for information and counsel.

Normally a maximum of 15 quarter (10 semester) hours of computer science credit will be counted toward the required 36 semester hours for computer science undergraduate majors at WSU.

Before seeking certification, the student must have completed the equivalent of at last 30 semester (45 quarter) hours of credit including the specific courses listed below.

Departmental certification will be considered along with admission to WSU for those students meeting the certification criteria. Students eligible for admission to WSU but not certified in Computer Science will be admitted to the Curriculum Advisory Program. Counseling for such students will be done by the department and certification by the department may be requested upon completion of the course work and the attainment of a satisfactory grade point average.

The following core courses or their equivalent are required before a student can be considered for certification:

	Semester Hours
Communication proficiency in written communications**	3
Electrical Engineering: EE 214	3
Mathematics: Math 171, 172	8
Computer Science: Cpt S 150, 250	7

**Must be selected from the list contained in the "General University Requirements" section.

WASHINGTON STATE UNIVERSITY

Biological science elective	3
Social science elective	6-15
Humanities elective	6-15
Computer Science 150	4

BEST COPY AVAILABLE

Computer Science 260	3
Computer Science 250	3

[1]Not required if two years of one foreign language completed satisfactorily in high school.

CONSTRUCTION MANAGEMENT

The department receives many more applications from qualified students than can be accommodated in the program due to budget and space limitations. The current rate is the most qualified 25 percent to 30 percent of the total applicants.

Students must be certified as either architecture or construction management majors to enroll in any 300- or 400-level architecture or construction management courses.

Students wishing admission or certification into the construction management program must:

1. Complete WSU General University Requirements (graduating from Washington community colleges with approved AA degrees will be considered having completed General University Requirements).

2. Pass the following courses with a grade of "C" or better:
   Architecture 101 — Graphic Communications
   Physics 101 — General Physics
   Accounting 230 — Principles of Accounting

3. Complete a minimum of 43 semester hours.

4. Submit the supplemental application form and other required data by December 15. (The supplemental application materials may be obtained directly from the Office of Admissions.)

NOTE: Final selection of students for certification (which occurs only once a year) will be made no later than five days prior to the start of the spring semester at WSU following the December 15 submittal date.

Selection of the most qualified students for Certification is based on fulfilling the minimum requirements and overall grade point average.

Students with over 60 hours, who are not certified in Construction Management, should certify pre-architecture.

Specific inquires should be addressed to:
Coordinator, Construction Management
College of Engineering and Architecture
Department of Architecture
Washington State University
Pullman, WA 99164-2220

CRIMINAL JUSTICE

For students wishing to spend one or two years at the community college prior to entering the Criminal Justice Program at WSU, recommended courses are listed below. By following the schedule as closely as possible while at the community college and by taking more than one criminal justice course each semester at WSU, the student should be able to complete the four-year degree curriculum on schedule. Students should complete the majority of the General University and College of Sciences and Arts requirements before entering WSU.

Students with specific problems of scheduling should correspond with the program director for assistance.

Transfer to the Criminal Justice Program from a community college that does not offer criminal justice or similar courses is possible. Students should complete courses satisfying General University Requirements and major supporting courses.

ECONOMICS

To be eligible for admission (certification) into economics, a student must have at least 40 semester (60 quarter) hours with a cumulative grade point average of 2.8 and a minimum grade point average of 2.4 in at least 6 semester hours of business core courses. Students not meeting this requirement will be placed in the Curriculum Advisory Program while completing certification requirements.

The courses listed are those that a student transferring to Washington State University should normally complete within the first two years. Students who transfer at the end of the first year should have made appropriate progress on their schedule of courses.

[1]Students who choose to take college algebra and trigonometry should also take one quarter of analytical geometry and calculus at the community college. If students complete only the college algebra and trigonometry at the community college, they will need to take one semester of calculus or both Mathematics 171 and 220 at WSU.

EDUCATION

Transfer students will be eligible to certify provided they have at least 30 transferable semester credits and a cumulative grade point average of 2.50 or higher, and satisfactory completion of the Preprofessional Skills Test of the Educational Testing Service (ETS). An acceptable exam will be accepted by the department.

Education majors planning to transfer to Washington State University to complete their requirements to teach should review the WSU catalog regarding available programs and subject matter requirements for teaching majors and minors. Programs will vary from student to student but a certain core of preprofessional courses should be included in the community college program.

Elementary education majors and secondary education majors under the following colleges and departments--Agriculture and Home Economics, Industrial Education, and Physical Education--are required to complete 6 semester hours of communications proficiency, 6 semester hours of social science, 3 semester hours of intercultural studies, 6 semester hours of humanities, and 10 semester hours of science with one laboratory.

All other secondary majors fall under the College of Sciences and Arts and are required to complete 6 semester hours of communications proficiency, 21 semester hours of social science and humanities (a minimum of 6 semester hours of humanities and 6 semester hours of social science), 3 semester hours of intercultural studies, 12 semester hours of science of which 3 semester hours must be in biological science and 3 semester hours must be in physical science. At least two courses must include laboratory work. In addition, students who have not completed two years of a single foreign language in high school must take one year of a single language in college.

BEST COPY AVAILABLE

WASHINGTON STATE UNIVERSITY

Education	Semester hours
Communications proficiency (3 must be written)	6
Psychology 102	3
[2]History and government of Washington	3
Social science elective	6-12
Humanities elective	6-12
Intercultural Studies elective	3
Biological science elective	3-9
Physical science elective	3-9
[1]Electives in teaching major	12

[1]See the WSU catalog for descriptions of acceptable teaching majors and minors. In most cases, junior and senior high school teacher training requires a 30-semester-hour major and a 15-22-semester-hour minor. There are a few 45-semester-hour majors with no minor required. Students preparing to teach at the elementary level will be required to complete a 30-semester-hour subject matter major in an acceptable field.

[2]Recommended for secondary majors who plan to have a teaching major or minor in any of the social studies fields.

ENGINEERING

The College of Engineering and Architecture at Washington State University offers undergraduate engineering programs in the Departments of Agricultural Engineering, Chemical Engineering, Civil and Environmental Engineering, Electrical and Computer Engineering, Materials Science and Engineering, and Mechanical Engineering. A joint, interdisciplinary degree in geological engineering is offered by the Department of Geology and the Department of Civil and Environmental Engineering. In addition to the Bachelor of Science degrees in these traditional fields, the college participates in the Environmental Science Program.

All engineering departments in the College of Engineering and Architecture have established procedures for certifying students into the departments. These admission procedures have been developed to safeguard the integrity of the academic offerings and to protect the student by clearly identifying the requirements for the degree.

The student must complete at least the first 3 semesters of the published schedule of studies for the department in which he or she wishes to certify before making application for certification into the department. For Materials Science and Engineering, only two semesters of the published schedule of studies is required for certification.

Overall grade point average (gpa), grade point in core courses, course repeats, and other criteria may be used by departments in their certification decisions. Required gpa varies depending on student performance and the number of students who can be accepted in a given semester. Core courses for certification into a Pre-Engineering status are the following:

Mathematics 171	Calculus I
Mathematics 172	Calculus II
Physics 201	Physics for Engineering (not required for certification into the Department of Materials Science and Engineering)
Chemistry 105	Chemistry

For departmental certification the following additional courses or their equivalents are required:

Agricultural Engineering
ME 101, CE 211, Math 220, Cpt S 203

Chemical Engineering
Chem 106, Chem 107, Chem 340, Math 273, Math 315, Phys 202, Ch E 201

Civil and Environmental Engineering
Math 220, Math 273, Phys 202, CE 211

Electrical and Computer Engineering
Students must have essentially completed the equivalent of the first two years of the schedule of studies as iisted in the WSU catalog, including GURs

Geological Engineering
Chem 106, CE 211, Math 220, Geol 102, Geol 350

Materials Science and Engineering
Chem 106, 107

Mechanical Engineering
ME 101, CE 211, Engl 101

Students transferring to the college who have 60 or more semester credits and have not completed the necessary courses for certification into an engineering department but have completed one year of calculus and one year of science will be considered for certification into Pre-Engineering. They will be advised and counseled by a faculty member from the department of their choice in preparation for applying to the department. Certification into Pre-Engineering does not guarantee subsequent acceptance into an engineering degree program.

BEST COPY AVAILABLE

Certification to all but Chemical Engineering and Materials Science takes place twice a year. The deadlines for application to the departments are November 15 for spring semester and April 15 for summer and fall semesters. Final decisions are generally made at the end of the semester. The Department of Chemical Engineering considers all eligible students (no application required) at the end of spring semester. The Department of Materials Science and Engineering certifies qualified students throughout the year.

Courses generally taken by students during the first two years in engineering are listed below. Because of the varied requirements of different departments, and options within departments, students are urged to consult the WSU catalog when planning their program.

WASHINGTON STATE UNIVERSITY

Engineering	Semester hours
[1]Engl 101 English Composition	3
Math 171 Calculus I	4
Math 172 Calculus II	4
[2]Math 220 Introductory Linear Algebra	2
[3]Math 273 Calculus III	2
Math 315 Differential Equations	3
Chem 105 Principles of Chemistry	4
Phys 201 Classical Physics for Engineers	4
Phys 202 Classical Physics for Engineers	4
[4]Cpt S FORTRAN Programming	2
[5]Econ Economics course	Variable 3-5

Additional chemistry courses may be required by specific departments.

Humanities, intercultural studies, social sciences, communication proficiency, and/or biological sciences electives as stated by the department's schedule of studies.

Engineering electives (e.g., ME 101, 102; CE 211, 212 or CE 213, 214; ChE 110; EE 214; Geol 102).

[1]Communication proficiency elective required by Materials Science and Engineering; not specifically English 101.

[2]Mathematics 220 not required by Chemical Engineering.

[3]Mathematics 273 not required by Geological Engineering.

[4]Computer Science 150 (PASCAL) also accepted by Electrical and Computer Engineering.

[5]Econ elective scheduled during junior year by Chemical and Geological Engineering.

ENVIRONMENTAL SCIENCE

The courses listed are those which a student transferring to Washington State University should normally have completed within the first two years. Students who transfer at the end of the first year should have made appropriate progress on their schedules of courses.

WASHINGTON STATE UNIVERSITY

Environmental Science 101	4

[1]Not required if two years of one foreign language completed satisfactorily in high school.

FOREST AND RANGE MANAGEMENT

The department grants three separate degrees: Bachelor of Science in Forest Management, Bachelor of Science in Range Management, and a Bachelor of Science in Wildlife and Wildland Recreation Management. A minimum of 128 semester hours is required for graduation. Many of these semester hours are specified departmental requirements. It is necessary for students to carefully select community college courses to meet these departmental requirements in order to minimize their enrollment time at WSU.

Selections of preprofessional courses available in community colleges are outlined below. The preprofessional student should work toward completion of General University Requirements and basic science and mathematics courses as they are available.

PROGRAM OPTIONS

The following options are designed to meet the individual interests of students. For either forest or range management curricula, options in management, science, wildlife habitat, and directed studies are available. For students in the wildland recreation curriculum, options include professional forester option, ranger option (Washington State Parks), interpretation, dispersed recreation management, and the directed studies option.

HOME ECONOMICS

The home economics programs of the College of Agriculture and Home Economics are developed in accordance with the definition of home economics as the study of the interaction of people as total beings within their near environment. The primary focus is placed upon the effects and influences, on each other, of both the near environment and the people as family groups and/or individuals.

There are three departments and one program within the College at WSU: Child and Family Studies; Clothing, Interior Design and Textiles; Human Nutrition and Foods; and the program in Home Economics Education. Each department maintains its own area(s) of specialization and expertise while providing the opportunity for interaction through interdepartmental studies and research.

In the Department of Child and Family Studies, there are five major options leading to the Bachelor of Arts degree: Family Studies, Consumer Studies, Child Development, Preschool Preparations, and Housing. The option in housing is offered in collaboration with the Department of Clothing, Interior Design and Textiles. The curriculum is designed for the student whose major concern is the development and welfare of the individual within a family-type setting. The program focuses on the normal physical, economic, social, and psychological development; understanding and functioning of the individual; and of a family unit.

BEST COPY AVAILABLE

The Department of Child and Family Studies cooperates in the child studies major in elementary education. For a description of this program, refer to the listing of the Department of Education in the WSU catalog.

The Department of Clothing, Interior Design and Textiles offers seven major options: Fashion Merchandising, Design, Social Science, Textiles, Interior Design, Housing, and Interior Design Merchandising. The textiles option leads to a Bachelor of Science in Home Economics and the Interior Design option leads to a Bachelor of Arts in Interior Design. The other options lead to a Bachelor of Arts in Home Economics.

The clothing and textiles courses provide instruction in the understanding of the social, psychological, and economic significance of fashion and in textiles and design. The Interior Design major prepares students for residential and commercial interior design positions and merchandising. The interior design option is accredited by the Foundation for Interior Design Education Research (FIDER) and provides a balanced program in the humanities as well as in interior design.

The Department of Human Nutrition and Foods offers the following major options leading to a Bachelor of Science in Home Economics: General Dietetics, Food Service Management, Food-Related Communications, Food-Related Business, and Research. The options are designed to prepare students for professional dietetics, positions as home economists in food-related organizations, or for research and graduate study.

The Home Economics Education Program has two major options that lead to the Bachelor of Science degree and qualify the graduate for the vocational certificate. Option A requires three semester courses of chemistry in addition to physiology and bacteriology or home nursing. In the program for Option B, there are fewer physical and biological sciences required, but an additional 9 credit hours of social sciences are required.

Because of the variety in the individual options offered, students are strongly encouraged to contact the College of Agriculture and Home Economics for specific program requirements.

WASHINGTON STATE UNIVERSITY

[1]Economics 102, 203 for consumer studies and fashion merchandising.

[2]Human nutrition and foods students should check with the department chairperson to see if the substitution is appropriate in their case.

[3]Dietetics majors required to take biochemistry at the junior level must have completed the equivalent to WSU Chemistry 105 and 106, or 104, 105 and 106.

Majors required to take organic chemistry must have completed the equivalent of WSU Chemistry 102.

[4]Interior design majors only.

HOTEL AND RESTAURANT ADMINISTRATION

For a student transferring into the four-year hotel and restaurant administration program at Washington State University (Pullman or Seattle campus), the recommended courses are listed below.

It is strongly advised that the student utilize both summer quarters in employment in the food and lodging industry before entering WSU. Up to 500 hours of the required 1,000 hours of work experience, can be transferred.

The Department of Business Administration (including the Hotel and Restaurant Administration Program) at Washington State University will not accept for credit toward meeting department requirements for graduation any courses taught at the lower-division level which are taught at the junior and senior level at WSU. Up to 6 semester (9 quarter) hours of such courses may be accepted toward the 120 semester (180 quarter) hours required for graduation.

BEST COPY AVAILABLE

Seattle campus: Center for Hotel and Restaurant Administration, 12 & E. Columbia, Seattle, WA 98122 (Seattle University campus). This program is offered on the quarter system. Students must have 57 applicable semester or 85 quarter hours to enter the degree program.

To be eligible for admission or certification into hotel and restaurant administration, a student must have earned at least 40 semester (60 quarter) hours with a cumulative grade point average of 2.80 and a minimum grade point average of 2.40 in at least 6 semester hours of business core courses. Students not meeting this requirement will be placed in the Curriculum Advisory Program while completing certification requirements.

WASHINGTON STATE UNIVERSITY

Hotel and Restaurant Administration	Semester hours

[1]The business department normally requires 6 semester (9 quarter) hours of written communication proficiency. However, students who have taken the equivalent of at least 4 semester (6 quarter) hours of written communication with a grade average of "B" may complete the departmental requirements by taking any course meeting the General University Requirement in communication proficiency.

[2]Community colleges that do not have an equivalent to Mathematics 201 may substitute an equivalent to Mathematics 220, Linear Algebra.

HUMANITIES

COMMUNICATIONS, ENGLISH, FINE ARTS, FOREIGN LANGUAGE, MUSIC, PHILOSOPHY, SPEECH

For students wishing to enter the fields of communications, English, fine arts, foreign languages, music, philosophy, or speech, courses for the freshman and sophomore years at Washington State University are indicated below. If students are uncertain as to their choice of courses before transferring they should write to the department concerned for information and counsel.

WASHINGTON STATE UNIVERSITY

Humanities	Semester hours
Communications proficiency (3 must be written)	6
[1]Foreign language	8
Humanities electives	6-15
Intercultural Studies elective	3
Social Science electives	6-15
Biological science electives	3-9
Physical science electives	3-9
[2]Additional courses for communications majors:	
Broadcasting 245	3
Journalism 225	3

To certify as a major in the Department of Communications, transfer students as well as current WSU students must have: (1) 45 semester hours of credit with a cumulative grade point average of 2.50, (2) 2.70 cumulative grade point average in communications courses, (3) no less than a grade of "C" in WSU's Communication 225 or its equivalent, (4) no less than a grade of "C" in two of the following three WSU introductory courses or their equivalents: Communications 101, 245, 270.

Additional courses for English majors:	
English 108	3
English 209, 210	6
English 245, 246	6

Additional courses for fine arts majors:	
Studio Courses:	
Fine Arts 103	3
Fine Arts 110	3
Fine Arts 111	3
Humanities:	
Fine Arts 201	3
Fine Arts 202	3

To be considered for certification in fine arts, transfer students must have completed 16 hours of specific fine arts course work and submit an acceptable portfolio.

[1]Not required if two years of one foreign language completed satisfactorily in high school.

[2]See the department chairperson or sequence advisors for courses required in the departments' sequences.

NURSING

At least four years are required to obtain the degree of Bachelor of Science in Nursing. The first two years of the curriculum can be taken at Washington State University or at any institution having courses equivalent to those taught at Washington State University. The last two years are professional study which are completed at the Intercollegiate Center for Nursing Education (ICNE) in Spokane. The program is open to high school graduates, men or women, and to registered nurses.

The courses listed are those which students transferring to Washington State University should normally have completed within the first two years. If they transfer at the end of the first year, students should have made appropriate progress on their schedule of courses.

Upon successful completion of the first two years of required course work and admission to Washington State University, the student is eligible to apply for entrance to the upper-division clinical program at the Intercollegiate Center. Applicants will be judged on the following criteria:

1. Cumulative grade point average.

2. Cumulative grade point average for courses prerequisite to the upper-division major. Minimum acceptable grade in prerequisite courses is a "C". A minimum cumulative gpa of 2.50 is required in the nursing prerequisite courses.

3. Three letters of reference.

4. Evaluation of all information in the application file by the Committee on Admissions and Standards at the ICNE.

5. Mathematics Proficiency Examination is taken prior to admission to ICNE.

Admission to the Center is competitive. Applicants for admission to the Center must present 60 semester (90 quarter) hours of acceptable credit from an accredited college or university. The credit must include courses that will meet General University Requirements for graduation, the additional requirements of the College of Sciences and Arts as listed in the WSU catalog and in this bulletin, and the nursing prerequisite courses.

Students are accepted to the Center twice a year, fall semester (August) and spring semester (January). Students are accepted at the Yakima site once a year, fall semester. Transfer students and/or RN applicants must request two applications (one to WSU and one to the Intercollegiate Center for Nursing Education) from the WSU Office of Admissions. Applications for fall semester are to be filed between December 1 and February 15. Applications for spring semester are to be filed between May 1 and September 1.

Students who plan to transfer should contact the WSU campus nursing advisor early in their program, preferably during their freshman year to obtain specific criteria for admission. Write to the nursing advisor, 236 Morrill Hall, Washington State University, Pullman, WA 99164-3524 or phone (509) 335-4549.

PHYSICAL EDUCATION, SPORT, AND LEISURE STUDIES

Descriptions of areas within the department, possible directions, and general background courses relative to each area are listed below. Courses equivalent to the core courses for each major curriculum are found in the section for each community college. The WSU catalog should be consulted for exact requirements in each area. Students should correspond with the departmental chairperson prior to transfer.

MAJORS

PHYSICAL EDUCATION: The physical education curriculum is designed to provide a solid professional preparation for future teachers of physical education and for those desiring to assume positions in physical education and sports related areas. Classes should include the core curriculum and a variety of activity classes in the areas of individual and team sports, tumbling and gymnastics, fitness, aquatics, and dance. Core classes: Physical Education Professional 104, 199, and 261.

RECREATION AND LEISURE STUDIES: Program includes completion of major core curriculum, in addition to election of an option from the following: Program Supervision, Therapeutic Recreation, Commercial Recreation, and Park Administration. CORE CLASSES: Recreation and Leisure Studies 275 and 285.

SPORT MANAGEMENT: Program leads to a degree in Recreation and Leisure Studies and provides preparation for students who want a management career in sport industry or sport business. Classes include the recreation and leisure studies core and supporting classes in business and management. CORE CLASSES: Physical Education, Professional 113, Recreation and Leisure Studies 275, 285, and 290.

MINORS

COACHING: Preparation for secondary school coaching positions, taken in conjunction with a teaching major in another area. Students should take advanced technique and strategy classes in several sports, public speaking, and techniques of officiating.

HEALTH EDUCATION: Preparation for teaching health combined with a teaching major in another area. Students should take a course in nutrition or environment, and one in the area of sexuality and/or family relationships.

PHYSICAL EDUCATION: Preparation for teaching secondary physical education combined with a teaching major in another area. Students should take addi- tional intermediate- and/or advanced-level courses in team sports, individual sports, aquatics, and dance.

RELATED AREAS

AQUATICS OPTION: Preparation as an aquatics specialist in physical education, recreation, and related areas. Students should take courses in any aquatic-related areas.

ATHLETIC TRAINING OPTION: Preparation for NATA athletic trainer certification in association with a major and a minor in any area of education. Students should take courses in human anatomy, human physiology, and first aid. Prior application must be made because of limited enrollment.

DANCE CONCENTRATION: Preparation is for performance, teaching, and/or dance therapy. Emphasis may be in performing or recreational dance. Technique courses should be taken in modern, ballet, jazz, folk, square, and social dance. The concentration is taken with a major in any other area.

ELEMENTARY SPECIALIZATION: Program is related to elementary education classroom teaching with a specialization in physical education. Desired direction will determine whether student should pursue background listed for the physical education major or that listed for the elementary education major.

EXERCISE SCIENCE: Preparation for fitness services and research. Open only to physical education majors. Classes should include basic scientific and fitness related areas.

[3]Food Science and Human Nutrition 130	3

[1]Speech 102 is required for recreation, sport management, coaching minor, and athletic training option. This course will partially complete the communications proficiency requirements.

[2]Psychology 102 is required for physical education, recreation, sport management, health education minor, and athletic training option, and will partially complete the social science requirement.

Sociology 101 is required for recreation, sport management, and athletic training option and will partially complete the social science requirement.

[3]Chemistry 101 or Biological Science 101 or 102 is a prerequisite for Zoology 251.

Zoology 251 is required for physical education and athletic training program and will partially complete the science requirement.

Food Science and Human Nutrition 130 is required for sport management athletic training option and may fulfill a health education minor requirement. This course will also satisfy a science elective.

PHYSICAL SCIENCES

Biochemistry, Chemistry, Geology, Mathematics, and Physics

For students wishing to enter the field of biochemistry, chemistry, geology, mathematics, or physics, courses for the freshman and sophomore years at Washington State University are indicated below. Students uncertain as to their choice of courses before transferring should write to the department concerned for information and counsel.

Students who have not selected chemistry courses equivalent to 105, 106, and 107 will be required to take Chemistry 106 and 107 at WSU in order to qualify for nearly all advanced chemistry courses.

WASHINGTON STATE UNIVERSITY
Physical Sciences

[7]Computer Science 150	4
[8]Geology 102	4

NOTE: Students planning to major in chemistry or biochemistry are advised to take a course in quantitative analysis and a full year of organic chemistry if possible.

[1]An additional semester of English composition is required for majors in biochemistry, chemistry, and physics. It is strongly recommended that such majors take three quarters (or two quarters for those colleges having 4- or 5-hour courses) of composition at the community college.

[2]Majors are required to have one year of college-level foreign language unless they have completed two years of one foreign language in high school.

[3]Recommended for students already developing strong interest in physical chemistry or biophysics and required for majors in physics and mathematics.

[4]Differential Equations is equivalent to the departmental requirements in physics and mathematics, but because this is upper division at WSU it will transfer as general elective credit.

[5]Not required for mathematics majors.

[6]Biochemistry requires Biological Science 103 and 104 (8 semester hours). Chemistry requires Biological Science 102 (4 semester hours) or 103 and 104.

[7]Required for mathematics and physics majors and highly recommended for chemistry majors.

[8]Geology majors only.

PREPHARMACY

The pharmacy curriculum is divided into one preprofessional year and four professional years. To be eligible for admission to the professional years in the College of Pharmacy, a student must have successfully completed the courses listed in the prepharmacy

BEST COPY AVAILABLE

year, or their equivalents, and have at least a 2.00 grade point average. Also, the grade point average made in the biological and physical science and mathematics courses must be at least 2.00. A transfer student must present at least 30 semester (45 quarter) hours of acceptable credit. Determination of admission to the College of Pharmacy will be based upon the total evidence required including the academic record, test results, letters of recommendation, and a personal interview. Because there is a restriction in the size of the classes in the College of Pharmacy, satisfactory completion of all of the requirements for admission does not guarantee admission to the College of Pharmacy.

Students planning to transfer to the WSU College of Pharmacy are expected to arrange for an interview by contacting the Office of the Dean.

Students with specific scheduling problems are urged to correspond with the dean of the College of Pharmacy.

In special cases, students may transfer into the pharmacy program at the beginning of the third year if all of the non-professional courses in the second year as well as those in the pre-pharmacy year have been satisfactorily completed and the overall grade point average meets the same requirements as established in the preprofessional year. Arrangements may be made to make up the work required in the professional courses ordinarily taken in the second year. Such a transfer student must present at least 60 semester (90 quarter) hours of acceptable credit. Admission to the third year is limited to the number of vacancies that occur in that class.

WASHINGTON STATE UNIVERSITY

Prepharmacy	Semester hours
Prepharmacy year	
[1]Communications proficiency (3 must by written)	6
Social science and humanities electives	6
[2]Biological Science 103, 104	8
[3]Chemistry 105, 106, 107	9
Mathematics 140	4
Second year	
Social science or humanities elective	3
Microbiology 101	4
Intercultural Studies elective	3
[4]Chemistry 340, 341, 342, 343	10
Economics 201	4
Biochemistry 364	3

[1]Half of the requirement can be deferred until the first professional year at WSU or the second year at the community college.

[2]Ten quarter hours of basic biological science will satisfy the requirements for Biological Science 103, 104. Vertebrate zoology is strongly recommended.

[3]Students who have not selected chemistry courses equivalent to 105, 106, and 107 will be required to take Chemistry 106 and/or 107 at WSU in order to qualify for advanced chemistry courses. Organic chemistry is extremely important to later study in pharmacy. A minimum of 10 semester (15 quarter) hours is required. Students planning to remain two years at the community college and who are unable to obtain 15 quarter hours of organic chemistry should correspond with the dean of the College of Pharmacy.

Students who satisfactorily complete 15 quarter hours of organic chemistry may expect that it will satisfy the requirements of the College of Pharmacy in the subject.

[4]This is equivalent to the departmental requirement, but because this is upper division at WSU is will transfer as general elective credit.

PREVETERINARY MEDICINE

A minimum of six years is required to obtain the degree of Doctor of Veterinary Medicine. The first two years of preveterinary training can be taken at any institution having courses equivalent to those taught at Washington State University. Additional work must be taken at an accredited four-year institution, and the last four years are professional study directed by the College of Veterinary Medicine.

Applicants for admission to the College of Veterinary Medicine must present at least 60 semester hours of acceptable credits from an accredited college or university exclusive of military training and physical education. The 60 semester hours should include:

	Semester hours
*Arts and humanities	6
*Social sciences	6
*Intercultural studies	3
*Communications proficiency (3 must be written)	6
Physical science, biological science	40
TOTAL	61

*General University Requirements

Except under unusual circumstances, applicants will be expected to have completed courses as indicated below:

Zoology or general biology

Chemistry: Including organic and biochemistry

BEST COPY AVAILABLE

Physics: Including electricity, optics, and sound
Mathematics: Prerequisite for chemistry or physics
Genetics

For the most current and up-to-date requirements for admission to the professional program you should contact the College of Veterinary Medicine Office of Student Services.

WASHINGTON STATE UNIVERSITY

Preveterinary Medicine	Semester hours

Social science	6
Humanities	6
Intercultural studies	3
(1)Biological Science 103, 104	8
(2)Chemistry 105, 106, and 107	10
Chemistry 240	4
Biochemistry 364	3
Physics 101, 102	8
Math 107	3
Genetics 301	4

[1]Ten quarter hours of basic biological science will satisfy the requirement for Biological Science 103, 104.
[2]Students who have not selected chemistry courses equivalent to 105, 106, and 107 will be required to take Chemistry 106 and 107 at WSU in order to qualify for advanced chemistry courses.

SOCIAL SCIENCES

Anthropology, Comparative American Cultures, History, Political Science, Prelaw, Psychology, and Sociology

For students wishing to enter the fields of anthropology, Asian American studies, Black studies, Chicano studies, history, Native American studies, political science, prelaw, psychology, or sociology, courses for freshman and sophomore years at Washington State University are indicated below. Students who are uncertain as to their choice of courses before transferring should write to the department concerned for information and counsel.

WASHINGTON STATE UNIVERSITY

Social Sciences	Semester hours
Communications proficiency (3 must be written)	6
[2]Psychology 101	3
[2]Sociology 101	3
Humanities electives	3-9
Social science electives	3-9
Intercultural Studies elective	3
Biological science elective	3-9
Physical science electives	3-9
[1]Foreign language	8
Additional courses for anthropology majors:	
Anthropology 101, 203	6
Anthropology 260	3
Economics 201	4
Geology 102	4
Philosophy 101	3
Biological Science 101	3
[3]Additional courses for comparative American cultures:	
Asian American Studies 201	3
Asian American Studies 205	3
Asian American Studies 275	3
Black Studies 101	3
Chicano Studies 110	3
Chicano Studies 220	3
Chicano Studies 248	3
Chicano Studies 272	3
Native American Studies 101	3
Additional courses for history majors:	
Economics 201	4
History 101, 102	6
History 110, 111	6
Political Science 101 or 102	3
Additional courses for political science and prelaw majors:	
Anthropology 101	3
Economics 102, 203	6
History 110 plus one course from the following: History 101, 102, 111	6
Philosophy 201	3
Political Science 101, 102	6
Political Science 206 or 222	3
Accounting 230 (prelaw majors only)	3
Additional courses for psychology majors:	
Psychology 102	3
Philosophy 101	3
Mathematics 107	3
Additional courses for sociology majors:	
Anthropology 101	3
Economics 201	4
History 101, 102 or 110, 111	6
Political Science 101	3
Sociology 102	3

See the WSU catalog for those courses meeting the General University Requirements. Students will fulfill many of their General University Requirements by taking the additional courses listed for each major.
[1]Not required if two years of one foreign language completed satisfactorily in high school.
[2]Recommended for Black studies program.
[3]Students who plan to earn a certificate in bilingual-bicultural education should take courses prescribed for elementary education majors.

BEST COPY AVAILABLE

ZOOLOGY, PREMEDICINE, AND PREDENTISTRY

For students wishing to enter the fields of zoology, zoophysiology, premedicine, or predentistry, courses at Washington State University are indicated below. The department also offers career-oriented options in animal supervision, biomedical sales, biomedical computing and microstructure and analytical methods. The WSU catalog should be consulted for the exact requirements in each option. Specific scheduling problems should be referred to the chairman of the department concerned.

Premedical and predental students should plan to take basic science courses in both institutions in order to strengthen their chances of being admitted to professional schools. For students who expect to apply to a professional college at the end of three years of college work, it is recommended that they transfer to WSU at the end of one year of work in a community college. This will enable the advisor to become better acquainted with them and with the quality of their work. This is necessary if the advisor is to render maximum assistance in placing the student in a professional school.

If the premedical or predental student expects to earn a Bachelor of Science degree before applying to a professional school, two full years in a community college are satisfactory. The program is formulated with this plan in mind. It is also satisfactory for a student who plans to take his or her Bachelor of Science degree in zoology at WSU.

WASHINGTON STATE UNIVERSITY

Zoology, Premedicine, Predentistry	Semester hours
Communications proficiency (6 must be written)	6
Social Science electives	6-15
[1]Foreign language	8
Humanities electives	6-15
Intercultural Studies elective	3
Biological Science 103, 104	8
[2]Chemistry 105, 106	7
[3]Mathematics 107 and 171 or 202	6-9
Physics 101, 102, or 201, 202	8
Zoology 224, 225	4
Computer Science 150 or 203	2-4

See the WSU catalog for courses meeting the General University Requirements for graduation.

[1]Not required if two years of one foreign language completed satisfactorily in high school.

[2]One semester of organic chemistry is also required; two semesters with laboratory are required for premedical and predental students. If possible, the entire chemistry requirement should be completed at the community college.

[3]Premedicine and predentistry majors are not required to take Mathematics 172.

WILDLIFE BIOLOGY AND WILDLIFE MANAGEMENT

For students wishing to enter the fields of wildlife biology or wildlife management, courses for the freshman and sophomore years at Washington State University are indicated below. Students uncertain about their choice of courses before transferring should write to the chair of wildlife biology for information and counsel. Some courses, such as Wildlife Biology 230 and 280, do not have suitable equivalents at the community college level.

WASHINGTON STATE UNIVERSITY

Wildlife Biology	Semester hours
Communications proficiency (3 must be written)	6

COURSE EQUIVALENTS

The following information indicates how community college courses will be treated when they are transferred to Washington State University.

Column 1, COURSE NAME, is the course number, and prefix as listed in the community college catalog.

Column 2, TRANSFERABLE, indicates whether the course will transfer to WSU. T = Transferable, N = Nontransferable.

Column 3, GUR, indicates whether the course meets a WSU General University Requirement. G or H = Arts and Humanities; I, G or K = Intercultural Studies; S, K or U = Social Sciences; C or W = Communication Proficiency; and B, P, U, or Z = Natural Science.

Column 4, WSU, indicates the Washington State University course equivalent. X = Transferable as departmental elective.

Restrictions and/or special notes are indicated in each section.

Courses with numbers less than 100 (001 thru 099) will not transfer to WSU; therefore, these courses are not included in this publication.

COURSE EQUIVALENTS

The following information indicates how community college courses will be treated when they are transferred to Washington State University.

Column 1, COURSE NAME, is the course number, and prefix as listed in the community college catalog.

Column 2, TRANSFERABLE, indicates whether the course will transfer to WSU. T = Transferable, N = Nontransferable.

Column 3, GUR, indicates whether the course meets a WSU General University Requirement. G or H = Arts and Humanities; I, G, or K = Intercultural Studies; S, K or U = Social Sciences; C or W = Communication Proficiency; and B, P, U, or Z = Natural Science.

Column 4, WSU, indicates the Washington State University course equivalent. X = Transferable as departmental elective.

Restrictions and/or special notes are indicated in each section.

Courses with numbers less than 100 (001 thru 099) will not transfer to WSU; therefore, these courses are not included in this publication.

COURSE EQUIVALENTS

The following information indicates how community college courses will be treated when they are transferred to Washington State University.

Column 1, COURSE NAME, is the course number, and prefix as listed in the community college catalog.

Column 2, TRANSFERABLE, indicates whether the course will transfer to WSU. T = Transferable, N = Nontransferable.

Column 3, GUR, indicates whether the course meets a WSU General University Requirement. G or H = Arts and Humanities; I, G or K = Intercultural Studies; S, K or U = Social Sciences; C or W = Communication Proficiency; and B, P, U, or Z = Natural Science.

Column 4, WSU, indicates the Washington State University course equivalent. X = Transferable as departmental elective.

Restrictions and/or special notes are indicated in each section.

Courses with numbers less than 100 (001 thru 099) will not transfer to WSU; therefore, these courses are not included in this publication.

COURSE EQUIVALENTS

The following information indicates how community college courses will be treated when they are transferred to Washington State University.

Column 1, COURSE NAME, is the course number, and prefix as listed in the community college catalog.

Column 2, TRANSFERABLE, indicates whether the course will transfer to WSU. T = Transferable, N = Nontransferable.

Column 3, GUR, indicates whether the course meets a WSU General University Requirement. G or H = Arts and Humanities; I, G or K = Intercultural Studies; S, K or U = Social Sciences; C or W = Communication Proficiency; and B, P, U, or Z = Natural Science.

Column 4, WSU, indicates the Washington State University course equivalent. X = Transferable as departmental elective.

Restrictions and/or special notes are indicated in each section.

Courses with numbers less than 100 (001 thru 099) will not transfer to WSU; therefore, these courses are not included in this publication.

COURSE EQUIVALENTS

The following information indicates how community college courses will be treated when they are transferred to Washington State University.

Column 1, COURSE NAME, is the course number, and prefix as listed in the community college catalog.

Column 2, TRANSFERABLE, indicates whether the course will transfer to WSU. T = Transferable, N = Nontransferable.

Column 3, GUR, indicates whether the course meets a WSU General University Requirement. G or H = Arts and Humanities; I, G or K = Intercultural Studies; S, K or U = Social Sciences; C or W = Communication Proficiency; and B, P, U, or Z = Natural Science.

Column 4, WSU, indicates the Washington State University course equivalent. X = Transferable as departmental elective.

Restrictions and/or special notes are indicated in each section.

Courses with numbers less than 100 (001 thru 099) will not transfer to WSU; therefore, these courses are not included in this publication.

COURSE EQUIVALENTS

The following information indicates how community college courses will be treated when they are transferred to Washington State University.

Column 1, COURSE NAME, is the course number, and prefix as listed in the community college catalog.

Column 2, TRANSFERABLE, indicates whether the course will transfer to WSU. T = Transferable, N = Nontransferable.

Column 3, GUR, indicates whether the course meets a WSU General University Requirement. G or H = Arts and Humanities; I, G or K = Intercultural Studies; S, K or U = Social Sciences; C or W = Communication Proficiency; and B, P, U, or Z = Natural Science.

Column 4, WSU, indicates the Washington State University course equivalent. X = Transferable as departmental elective.

Restrictions and/or special notes are indicated in each section.

Courses with numbers less than 100 (001 thru 099) will not transfer to WSU; therefore, these courses are not included in this publication.

COURSE EQUIVALENTS

The following information indicates how community college courses will be treated when they are transferred to Washington State University.

Column 1, COURSE NAME, is the course number, and prefix as listed in the community college catalog.

Column 2, TRANSFERABLE, indicates whether the course will transfer to WSU. T = Transferable, N = Nontransferable.

Column 3, GUR, indicates whether the course meets a WSU General University Requirement. G or H = Arts and Humanities; I, G or K = Intercultural Studies; S, K or U = Social Sciences; C or W = Communication Proficiency; and B, P, U, or Z = Natural Science.

Column 4, WSU, indicates the Washington State University course equivalent. X = Transferable as departmental elective.

Restrictions and/or special notes are indicated in each section.

Courses with numbers less than 100 (001 thru 099) will not transfer to WSU; therefore, these courses are not included in this publication.

Column 1, COURSE NAME, is the course number, and prefix as listed in the community college catalog.

Column 2, TRANSFERABLE, indicates whether the course will transfer to WSU. T = Transferable, N = Nontransferable.

Column 3, GUR, indicates whether the course meets a WSU General University Requirement. G or H = Arts and Humanities; I, G or K = Intercultural Studies; S, K or U = Social Sciences; C or W = Communication Proficiency; and B, P, U, or Z = Natural Science.

Column 4, WSU, indicates the Washington State University course equivalent. X = Transferable as departmental elective.

Restrictions and/or special notes are indicated in each section.

Courses with numbers less than 100 (001 thru 099) will not transfer to WSU; therefore, these courses are not included in this publication.

COURSE EQUIVALENTS

The following information indicates how community college courses will be treated when they are transferred to Washington State University.

Column 1, COURSE NAME, is the course number, and prefix as listed in the community college catalog.

Column 2, TRANSFERABLE, indicates whether the course will transfer to WSU. T = Transferable, N = Nontransferable.

Column 3, GUR, indicates whether the course meets a WSU General University Requirement. G or H = Arts and Humanities; I, G or K = Intercultural Studies; S, K or U = Social Sciences; C or W = Communication Proficiency; and B, P, U, or Z = Natural Science.

Column 4, WSU, indicates the Washington State University course equivalent. X = Transferable as departmental elective.

Restrictions and/or special notes are indicated in each section.

Courses with numbers less than 100 (001 thru 099) will not transfer to WSU; therefore, these courses are not included in this publication.

COURSE EQUIVALENTS

The following information indicates how community college courses will be treated when they are transferred to Washington State University.

Column 1, COURSE NAME, is the course number, and prefix as listed in the community college catalog.

Column 2, TRANSFERABLE, indicates whether the course will transfer to WSU. T = Transferable, N = Nontransferable.

Column 3, GUR, indicates whether the course meets a WSU General University Requirement. G or H = Arts and Humanities; I, G or K = Intercultural Studies; S, K or U = Social Sciences; C or W = Communication Proficiency; and B, P, U, or Z = Natural Science.

Column 4, WSU, indicates the Washington State University course equivalent. X = Transferable as departmental elective.

Restrictions and/or special notes are indicated in each section.

Courses with numbers less than 100 (001 thru 099) will not transfer to WSU; therefore, these courses are not included in this publication.

COURSE EQUIVALENTS

The following information indicates how community college courses will be treated when they are transferred to Washington State University.

Column 1, COURSE NAME, is the course number, and prefix as listed in the community college catalog.

Column 2, TRANSFERABLE, indicates whether the course will transfer to WSU. T = Transferable, N = Nontransferable.

Column 3, GUR, indicates whether the course meets a WSU General University Requirement. G or H = Arts and Humanities; I, G or K = Intercultural Studies; S, K or U = Social Sciences; C or W = Communication Proficiency; and B, P, U, or Z = Natural Science.

Column 4, WSU, indicates the Washington State University course equivalent. X = Transferable as departmental elective.

Restrictions and/or special notes are indicated in each section.

Courses with numbers less than 100 (001 thru 099) will not transfer to WSU; therefore, these courses are not included in this publication.
